Stars & Angels

Investment and Strategy Consultants

“It’s not enough to have any consultant, you need only the right one. Keep the profile low, quiet, fly straight to the point is our motto”

www.starsnangels.com

Introduction

Set up the targets, identify investors, check how much to invest, find what entity to use, check our best selling project proposals.

Decision making is one of the most difficult process that is why you need the help and consultation of our team, no time to waste, no resources left to compromise, just (results + results + results), this is the magic word we keep for you.

1. How we do it ?

We listen to your scenario, we analyze your case and based on your profile and personal requirements we set up the right investment scenario that best fits to your case, a tailored made costume solution based on your size and characteristics.

1.1 Set up targets

Our qualified team of consultants would seat with you and spend time filtering your personal profile story, requirements and targets to be achieved.

We will set up realistic and achievable targets based on your personal characteristics.

With the help of our team of professional business analyst / Accountants / Lawyers will go through a strategic questioner and set up the crucial valuable information to build up the right scenario for your case.

The end result would be a conclusive feasible plan based on your personal and family requirements to invest in the jurisdiction of your preference in order to perform feasible investment movements.

1.2 Identify **Investors**

Is a worldwide rule inside the global banking system that no one dollar can be invested unless there is a solid feasible and verifiable economic substance scenario proving the origin of your funds and building the right source of wealth to give you financial freedom movement of your funds in any direction you need.

With the help of our professional team of high tech Licensed Chartered Qualified Accountants and Licensed Lawyers will help you prepare all bureaucratic procedures and documentation required by banks and Government authorities to perform all your financial money movements.

1.3 How much to **Invest?**

Is not a secret why most projects fail, because there is no written strategic plan, no feasibility study with investment appraisal option scenarios on which is the best option to choose, how much to invest, required rate of return on investment, min repayment of capital and other economic investment parameters to be considered.

1.4 Investment **Vehicle to use**

Our team of high tech Qualified Accountants / Lawyers specialising in the area of International tax planning / Corporate / Migration / Tax Law will set up the requirements needed and will recommend what kind of vehicle to use and in which jurisdiction? For example what kind of company you will need, Dubai / Cyprus / USA?

Concluding the decision making process will be based on your personal feasibility study and would give recommendations on how to move funds, at which direction and with what kind of vehicle which best fits to your case.

We offer very boutique and tailored made solutions for very demanding clients and personal cases only.

We do the investment project appraisal from the right scratch, we tell you how to move and where your funds, we tell you in which country to form an entity and then how to represent to tax and bank authorities the source of your funds and wealth.

Our boutique case clients are proof of our success we bring to your case.

2. Where to Invest?

2.1 Invest in Property

Our team of high tech Qualified Accountants / Lawyers specialising in International tax planning / Corporate / Migration / Tax Law will set up the requirements of what kind of investment is best for your case (property or investment in portfolios).

We have a qualified list of licensed property consultants that would go through your personal case requirements (amount of investment, place of property, and required return), and would bring the best solution that fits to your case.

Would physically tour you until you are 100% satisfied you did the right investment.

2.2 Invest in Portfolios

Our team will also set up the requirements of what kind of investment is best for your case for portfolios of your choice.

We have a qualified list of licensed investment consultants that would go through your personal case requirements (amount of investment, place, and required return), and would bring the best solution that fits to your case.

3. Cyprus Proposals

Cyprus investment citizenship plan ranks among the first three best passports with USA and Canada, which means a lot for your case.

You can visit Cyprus and see for yourself the organised infrastructure of this beautiful Country / Island.

Step by step movements carefully plan specifically for your own case.

For more information, please visit:

4. Greece Proposals

Greece golden visa program is the best selling program globally right now, freedom of moving anywhere in Europe apart from the organised infrastructure Greece would give to you.

Is a life dream for most people to visit and leave in the Greek Islands paradise, who does not know about the Great Alexander story and mythology of Greece.

Welcome to a nice and warm environment of cheerful people the rest you can discover it yourself.

Greek investment program gains popularity especially the freedom of movement between other Europe countries / Schengen visa.
